

CUMULATIVE WORDSTEM LIST FROM A & P 201

David B. Fankhauser, Professor of Biology and Chemistry.

rvsd 22 September 1994, 23 Sept. '96, 11 Sept '97, 18 Sept 99, 23 Sept 02, 23 Sept 03, 22Sept05

http://biology.clc.uc.edu/fankhauser/Labs/Anatomy_&_Physiology/A&P201/AP201_wordstems.htm

Be certain to add new wordstems which are given in class but not on this list (and add to notebook list):

abduct	away, carry	cruciate	cross	incus	anvil	obtuse	dull	script-	write
acetabulum	vinegar cruet	-culum	little	infra-	below	oculi	of the eye	sebum	grease
acinar	wine flask	cuneiform	wedge shape	inguinal	groin	odont-	tooth	septum	fence, wall
acro-	highest point	cyano-	blue	inter-	between	-ogen	give rise to	sequella	that which follows
actin-	radiate	cyte	cell	intra-	within	-oid	like	serous	whey
ad-	to, towards	de-	remove	-iole	little	-ol	alcohol	serratus	saw toothed
aden-	gland	demi-	half	iris	rainbow	olecranon	elbow	sinus	cavity
adduct	toward, carry	dens	tooth	ischium	hip	-oma	tumor	-sis	condition, process
ala	wing	derm-	skin	iso-	same	oris	of the mouth	som-	body
alveolus	little space	desmo-	bond	-issimus	superlative	-orum	possessive plural	sphen-	wedge
amphi-	both	dia-	across	-itis	inflammation	os	bone or mouth	spino-	thorn, twig
amyl	starch	digit	finger	jaundice	yellow	-ose	sugar	spir-	breath
ana-	upward	diplo-	double	kerato-	horn	-osis	process condition	splenius	bandage
annular	ring	distal	far	labium	lip	osmo-	push	squamous	scale
ante	before	dogma	teaching	lact-	milk	ova	egg	sta-	hold, remain
anti-	against	dorsal	back	lactri-	tear	papilla	nipple little	stapes	stirrup
apo-	detach	ecto-	outer	lacuna	pool	parietal	of the wall	-stat	stand, maintain
areola	space	edema	swelling	lamella	layer, little	patho-	disease	ster-	fat
arthr-	joint	-elle	diminutive	lamina	layer	pect-	chest	stratum	layer
-ase	enzyme	endo-	inside	lata	side	pelvis	basin	styl-	pencil
auto-	self	enter-	intestine	lemma	husk	pepti-	stomach	sub-	under
axilla	armpit	epi-	upon	lig-	tie	peri-	around	sulcus	groove
benign	well	eryth-	red	lip-	fat	peroneus	shin	supra-	above
-blast	immature	ethm-	sieve	log-	word, science	phago-	eat	sym-	together
bol-	throw	etio-	cause	lucidum	light	phalanx	finger	syn-	together
brachi-	arm	etymo-	truth	lumbar	loin	-phil-	like	tegu-	hold
buccal	cheek	exo-	out	lumbri-	worm	phob-	fear, hate	teres	round
bursa	purse	facet	face surface	lunate	moon	-phragm	membrane	tetra	four
calvarium	roof	fascia	band, bandage	lymph	fluid	physio-	bodily function	-thelial	nipple
cardio-	heart	femur	thigh	lys-	break	physis	nature	thenar	palm of the hand
cancel	lattice work	fica-	to make	macro-	large	pili	hairs	therm-	heat
capitis	of the head	fol-	nest	magnum	large	pino-	drink	thio-	sulfur
capitulum	head, little	foramen	hole	major	large	pisiform	pea shaped	thoracic	chest
carcin-	crab	fossa	trench	mal-	bad	plasma	form, shape	thymus	shield
-cardium	heart	fovea	depression	malleolus	hammer little	platy-	flat	tibia	flute
cata-	down	fruct-	fruit	mandible	lower jaw	pleio-	more, many	-tion	process, condition
caudal	tail	galac-	milk	manubrium	handle	-poesis	create process	-tomy	to cut
cephalic	head	galli	rooster	masseter	chew	pollex	thumb	ton-	strength
-ceps	head	gam-	marry	mastoid	breast like	poly-	many	top-	place
cervi-	neck	gastro-	stomach	matrix	mother	popliteal	back of knee	toxi-	poison
chol-	bile	gen-	give rise to	maxilla	upper jaw	post-	after, behind	trachea	pipe, tube
chondri-	cartilage	genio-	chin, beard	meatus	passage	pro-	before	tract-	pull
chromo-	color	germ	bud	melan-	black	propria	possession	trans-	across
chyme	juice	ginglymus	hinge	meniscus	moon little	proto-	first	trochanter	runner
cilia	hairs	glab-	smooth	mental	chin	proxi-	next to	trochlea	pully
circum-	around	gladiolus	sword	-mer	unit	pseudo-	false	troch-	wheel
cirrh-	yellow	gluteo-	buttocks	mero-	unit	ptery-	wing	tropho-	nourish
cisternae	of the chamber	gluc-	sugar	meso-	middle	ptom-	fall	tropo-	turn
-clast	break	gluteo-	buttocks	meta-	between	pubis	hairy	tuber-	hump, k nob
-clature	to call	gross	large	micro-	tiny	pyr-	fire	turbin-	to whirl
clavi-	key	guan-	dung	minor	small	quad-	four	turcica	Turk's
cleido-	key	hal-	salt	minute	small	ramus	branch	tympan-	drum
coll-	glue	hallux	great toe	mito-	thread	rect-	straight	ulna	elbow
com-	with	hamate	hooked	mnem-	memory	reticular	network little	val-	strong
con-	with	hemo-	blood	mono-	single	retinaculum	halter	vaso-	vessel
concha	shell	hernia	yarn	morph	shape	retro-	behind	vastus	large
condyle	knuckle	hiatus	gape	muco-	slime	rheum-	fluid	ventral	belly
corac-	beak	histo-	tissue [or story]	mul-	milk	rheo-	flow	villus	shaggy mane
corneum	horn	holo-	entire	mus-	mouse	risorius	laughter	viscera	internal organs
coron-	crown	homeo-	same	myo-	muscle	-rrh-	flow	vomer	plow
cortex	bark	hy-	U shaped	mys-	muscle	sacchar-	sugar	xyph-	sword
coryne-	club	hyal-	glassy	navicular	boat little	sacr-	consecrated	zygo-	join, unite
costal	rib	hydro-	water	-nomen	name	sagittal	arrow		
coxa	hip	hyo-	"U" shaped	nomos	mane	sarco-	flesh		
cranial	head or skull	hypo-	below	nux	nut	sartorius	tailor		
-crine	secrete	ilium	broad	-nychium	ingernail	scaphoid	boat, like		
crista	crest	-in	agent	oblique	at an angle	scapula	shovel
