

HUMAN SKELETON 5.

Cranial Floor

1. Occipital
2. Internal occipital crest
3. Foramen magnum
4. Posterior cranial fossa
5. Jugular foramen
6. Sigmoid sulcus
7. Parietal
8. Middle cranial fossa
9. Sphenoid
10. Anterior cranial fossa
11. Frontal
12. Crista frontalis
13. Foramen cecum
14. Crista galli

15. Cribriform plate
16. Ethmoid
17. Anterior clinoid process
18. Hypophyseal fossa
19. Posterior clinoid process
20. Foramen ovale
21. Foramen lacerum
22. Foramen spinosum
23. Temporal
24. Internal auditory canal
25. External occipital protuberance
26. Condylar fossa
27. Occipital condyle
28. Carotid canal

29. Styloid process
30. Mastoid process
31. External auditory meatus
32. Mandibular fossa
33. Pterygoid process
34. Pterygoid hamulus
35. Palatine
36. Zygomatic
37. Maxilla, palatine process
38. Maxilla
39. Incisive foramen
40. Infraorbital foramen
41. Palatine foramen
42. Vomer
